- TATTOOS MUST BE LEGIBLE AND MUST BE DONE PRIOR TO OUR ARRIVAL, NO INK STILL ON IT!
- There are new Scrapie tag forms available – e-mail atticavettech@yahoo.com for one or check with NYS Ag & Markets.

Fly Management Protocol For Your Farm

Attica Veterinary Associates, in partnership with Kunafin can help set your farm up to reduce the flies. Every week, or bi-weekly, a shipment of bags with fly parasites will arrive at your farm. We are expecting to start on or around May 1st. We can ship weekly or bi-weekly. Once the parasite bags arrive at your farm, it's recommended to release that day in the morning or late afternoon. Lightly scatter around perimeter and by feed areas. Release along areas of fly breeding, fence edges, manure piles, crusted lagoon areas, bedded straw packs, around water troughs, calf facilities or calf hutches. Even distribution is the key. Call us to set up a program – talk to Dr. Scott or Jennifer.

Reminder - Do NOT call the text line - 585-356-3420, check your contacts and be sure that our office number is saved in your phone - 585-591-2660

Also - call the office to schedule, not your vet directly. It can help us streamline our calls and make sure your issue gets taken care of in a timely manner.
