

Collecting Clean Colostrum

1. Start with clean teats.

- Use plenty of clean predip solution.
- Wipe carefully.
- Predip a second time.
- Wipe carefully, scrub across teat ends
- Check for clean teat ends.
- Think of routine: dip, wipe, dip, wipe, scrub.

2. Dump from collection can into a clean container.

- Start with a clean container.
- Cover immediately with a clean lid.
- Take out of milking parlor as soon as possible to feed or chill.

3. Or, take collection can out of parlor as soon as possible to feed or chill. If chilling click [HERE](#) for farm-friendly methods.
